

USANA

# Healthy Business

JUNE ROADSHOW

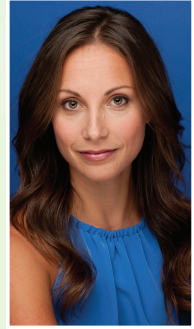

with Dr. Brian Dixon & Diamond Director Anna Lozano from Canada

The 2015 Healthy Business Roadshow will combine health, freedom, business and training into one exciting event and USANA is thrilled to welcome guest speakers Dr Brian Dixon and Anna Lozano.

**Health:** Dr Brian Dixon manages the many clinical studies conducted at USANA; this includes research about the biochemistry of ageing and the benefits of good nutrition. If you are confused by the science behind the many nutritional products available, or you want more in-depth knowledge about USANA's award-winning products or the latest nutritional advances, Dr Dixon can communicate innovations and science in an upbeat and easy-to-understand way.

**Freedom and Business:** Anna Lozano, a graduate of the Richard Ivey School of Business in London, Ontario, and a sales and marketing professional by experience, has quickly become one of USANA's fastest growers in North America with her global vision and passion for empowering and inspiring others to live their best life, in total freedom and optimal health. Anna is fully committed to her passionate, energetic and growing team of leaders who come from all walks of life.
